PROFESSIONAL SUMMARY

Senior Frontend and UI/UX Developer with 8+ years of experience designing and building responsive websites, SaaS web applications, and conversion-focused landing pages using React.js, Next.js, JavaScript/TypeScript, Tailwind CSS, Bootstrap, and WordPress. Skilled in translating high-fidelity Figma designs into accessible, cross-browser-compatible, production-ready interfaces. Adept at leveraging modern AI-assisted development workflows — prompt engineering, AI code generation, AI-assisted debugging, and workflow automation across tools such as Claude AI, ChatGPT, GitHub Copilot, Cursor AI, OpenAI Codex, and Antigravity IDE — to accelerate delivery without compromising code quality. Proven track record shipping live client and personal SaaS products, e-commerce sites, and dashboards. Immediately available, open to relocation and international opportunities.
